BEAULIEU OF AMERICA selects Startech Software.

December 19, 2006 Novi, MI --- Beaulieu of America, of Dalton, Georgia, has selected Novi based Startech Software Systems, Inc. as their claims and medical bill review software provider. The Eclipse program from Startech will be used to manage the entire Workers' Compensation claim process from start to finish.

Beaulieu, one of the premier carpet and flooring producers in the country, has evaluated several vendors and chose Startech as their partner in this process. Beth Randolph, Beaulieu's Senior Manager for Workers' Compensation, stated, "We found that the Eclipse software had the functionality that best suited our needs and their system closely fit our workers compensation business plan"

Said Bruce T. Stubbs, Startech's Executive Vice President and COO, "We are very grateful to have been chosen by Beaulieu and expanding our presence in the manufacturing marketplace. Beaulieu has been very easy to work with and we look forward to delivering on our promise of exceptional customer service."

Startech Software Systems, an FDI Group Company, is a Novi, MI based software solution provider for the insurance and managed care industries. They are on-line at www.startechsoftware.com.
